

## 36 European countries

*Note: the population of each city is listed in order to justify its ranking, but is for the sake of the drawing project, at this time, irrelevant.*

*Please excuse any seemingly false information, such as ranking or spelling of city names. Internet sources were primarily Wikipedia, and to a lesser extent [citypopulation.de/~](http://citypopulation.de/~) and [tageo.de/~](http://tageo.de/~), in February 2012 (respective census was at times several years outdated).*
